

8686 FTTH Wall Outlet

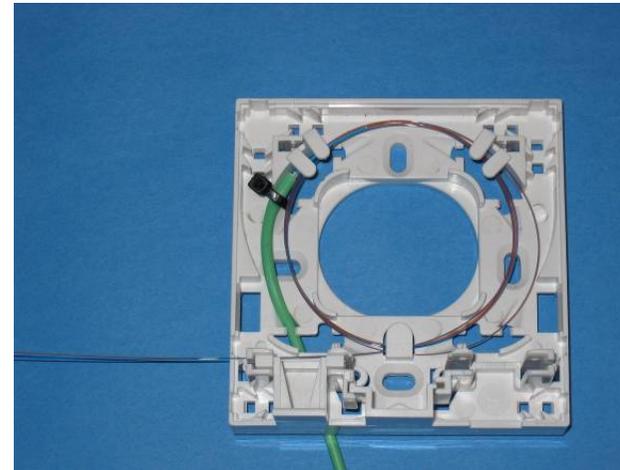

- The outlet allows mounting of 4 ea SC simplex couplings.
- Normally only 2 ports would be used depending on cable entry and coiling direction
- If only one SC port is used, the three attached blind covers will close the unused SC ports.
- A blind cover closes the keystone port for only fibre terminations

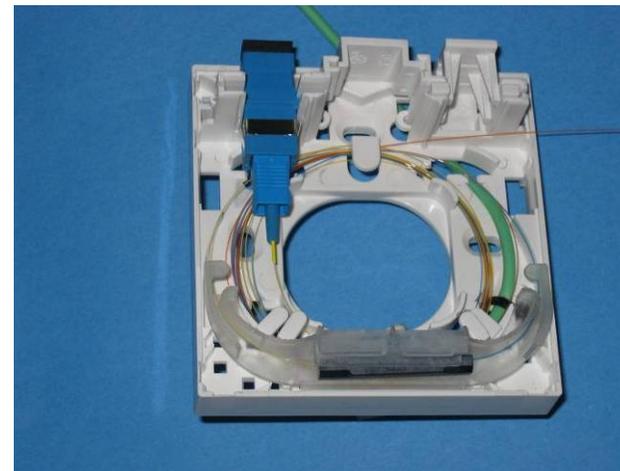

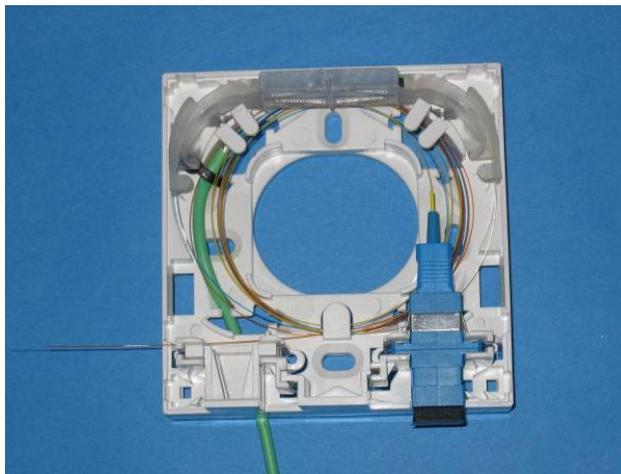

Cable entry form rear and fixing

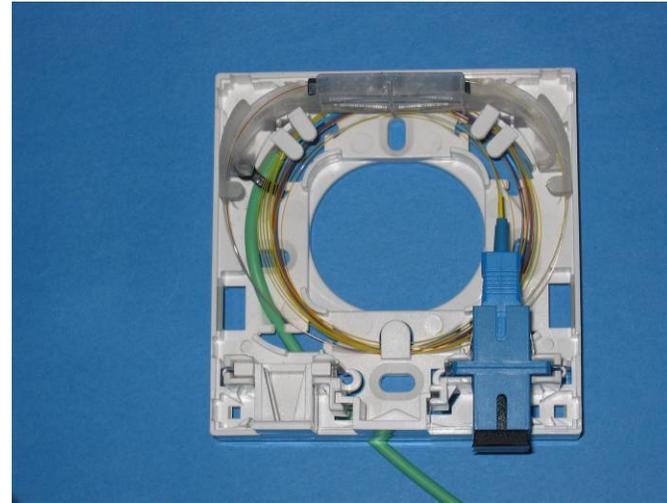

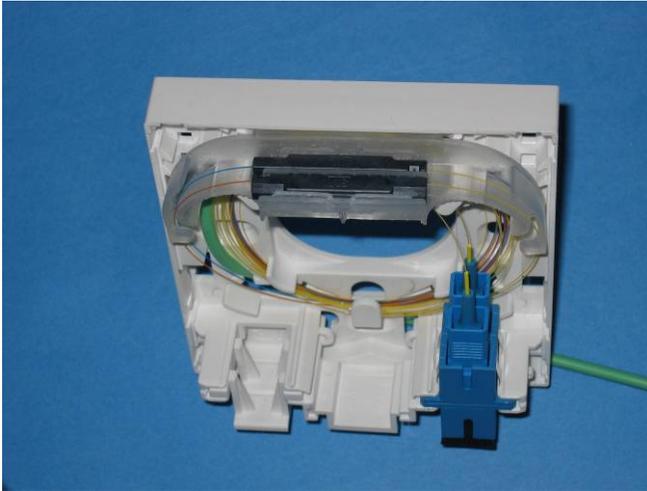

Fibre routing

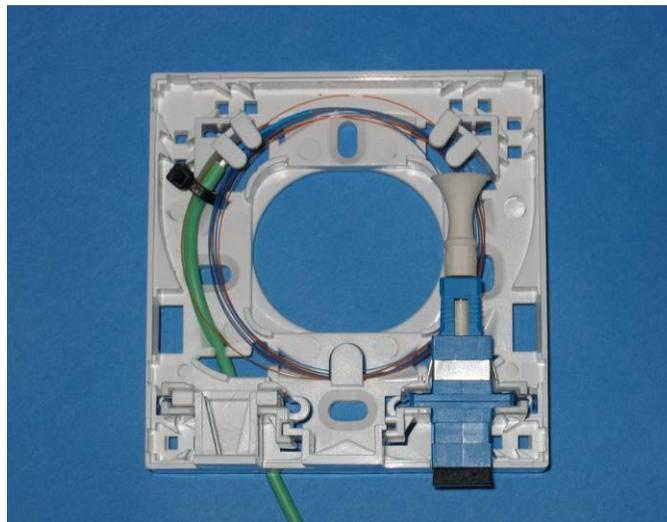

Placing 1st pigtail and splice

Placing of 2nd pigtail and splice

Direct termination with SC NPC connector

Mounting on 60mm under wall beaker
