BOX57-CPE19

WAVE Pacific ARENA

AntenaBox with integrated 19dBi antenna in 5GHz band.

Highlights:

- Boxed panel antenna for 5GHz band
- Ideal for Client stations
- Compatible with RB133/133c/411
- Weatherproof and lightweight
- Horizontal or Vertical polarization
- Easy to mount

Specifications:

|	
Freq. Band	5200 - 5800 MHz
Gain	18.5dBi +/- 0.5dBi
Polarization	Vertical or Horizontal
VSWR	< 1.5
Connector	RPSMA Jack
Pigtail RPSMA-IPAX	Included
Dimensions	20 x 21 x 8 cm
Mounting	Mast 30 - 50mm

Photo 3 ↓

Mounting:

- Screw down four distancers and pigtail on metal plate (Photo N°2)
- Connect IPAX end of pigtail on mini PCI card
- Fasten board on distancers with four screws
- Put metal plate in a box and connect required cables (Photo N°1)
- Close a box with included plastic cover and fasten on the one side with three screws (Photo N°3)
- Fasten mast holder on the other side of the box and the device is ready for mast mounting.

Antenna is under the metal plate. There is an arrow that indicates polarisation. You can rotate the plate to get vertical or horizontal polarization.
Do it before putting the plate in the box!

We recomend you to use the power over ethernet injector to avoid using two cables.
